## Skills:

React.js, Node.js, JSON, AJAX, MySQL, MongoDB, Firebase, Git, Python, Passport.js, jQuery

## Representative Projects:

- **PlanIt:** A minimalist web app where users can see their notes, train schedule, weather, and food vendors.
- **GitTrack:** An app that allows code instructors access to the number of commits of their students. GitTrack focuses on using graphs to visualize commit number over time.
- **Planner:** A chrome extension that helps users plan using calendars. Uses the Chrome Storage API to store user info in the cloud.

## Education:

Full Stack Web Development Course May 2019 – Aug 2019  
UC Berkeley Extension, San Francisco

B.S. Ecology and Evolutionary Biology Sep 2013 – Sep 2017  
University of California, Santa Cruz

## Work Experience:
